

To FCC:

Please revoke Sinclair Broadcasting's license. Their decision to air this highly partisan anti-Kerry piece is an egregious misuse of the public airways. Please investigate the relationship between Sinclair and the Republican Party to determine whether monies exchanged hands or favors were granted to Sinclair by the Bush Administration for airing this 90 attack commercial.

At a minimum, the Kerry campaign should be permitted to broadcast on Sinclair stations, during prime time and before the elections, their own 90 commercial so that they can have the same opportunity to document Mr. Bush's service in the Guard.

Thank you,

Ronni G. Shapiro
